## SEASONAL RELEASE

A wacky idea inspired by the creativity of our friends at Tin Man in El Paso, this IPA is one of the most transformative beers we've ever developed on our 10-hectoliter pilot brewhouse. It has its roots in the New England style of IPA but is modified by a small addition of lactose, which produces a softer mouthfeel and subtle sweetness. German Ariana hops give this IPA a berry-like aroma, which is boosted by late fermentation additions of fresh strawberry puree and Mexican vanilla, taking this beer to skull-splitting levels of awesomeness. Prepare to have your mind blown!
